Clinical Indications

Author : Quirico

Edition : 1

Year : 2008

Pages : 268

ISBN : 9783131412614

Price : \$200.00

Description

Finally, the Italian doctor Quirico has produced a book that allows you to easily compare and contrast specific traditional Chinese indications and their modern Western counterparts, for all major acupuncture points.

In 256 pages, this book offers extensive clinical information on more than 400 acupuncture points, arranged in a conveniently referenced format with a profusion of tables. In three chapters, it discusses in numerical order the acupuncture points of the twelve regular channels, the acupuncture points of the two extraordinary channels, and lastly the extraordinary points on the head and neck, trunk, upper limbs, and lower limbs. For each point, it provides:

- ▶ A linguistic explanation of the Chinese name
- ▶ A comparison of the modern Western and TCM indications in table form
- ▶ Explanatory notes to synthesize this information, offer contraindications, and provide the applied clinical context
- ▶ A second table with main combinations and their indications
- ▶ The TCM functions

Offering key point combinations and a complete list of clinical indications for each acupuncture point, this book is an excellent complement to Volume 1, the illustrated point atlas. By improving your understanding of each points application, you will advance your practice of Chinese medicine and build a bridge between the Western and Eastern medical paradigms.
