Description

Embarking on the first clinical rotation in a hospital is a daunting experience for clinicians, as textbook knowledge does not necessarily correlate with the know-how that is necessary “in the trenches” at the hospital.

Whether you are a nurse tending to a central venous line or an intern inserting that line,

**CODE BLUE**

is an indispensable addition to your arsenal of emergency care knowledge. Put this handbook in your lab coat pocket and place the following information at your fingertips:

- Basics on body systems, diseases, and drugs
- Critical information for emergent procedures at the patient’s bedside
- Information on treating cardiopulmonary emergencies
- Pearls and pitfalls for a wide range of conditions
• Needed supplies

• Important post-procedure checks

• Notes and orders, laboratory values, and equations you will refer to every day
