Description

This Open Access journal is available to read for FREE on Thieme E-Journals.

Indian Journal of Neurotrauma (IJNT) is the official journal of the Neurotrauma Society of India (NTSI) which was started as the Neurotraumatology Committee under the aegis of Neurological Society of India with its first meeting at Hyderabad on 15th August 1992 organized by Dr. I. Dinakar. Click here for more information about the society. IJNT is a peer-reviewed publication for all those involved in Neurotrauma care. It reports on the latest advances in traumatic brain and spinal cord injury and encompasses clinical and preclinical research. The Journal focuses on clinical trials targeted at improving both the early management and long-term care and recovery of traumatically injured patients. IJNT publishes cutting-edge basic and translational research in traumatically injured human and animal studies from the Indian sub-continent, with emphasis on prevention and management of Neurotrauma within this region.

IJNT is available in print and online. Articles published ahead of print are available via the eFirst service on the Thieme E-Journals platform.

Journal of Neurotrauma coverage includes:

- Traumatic brain injury
- Spinal cord injury
- Psychological and behavioural abnormalities
Electrophysiological change

Stem cell biology and transplantation

Neurorehabilitation

Biomedical devices and implants

IJNT welcomes original articles, review articles, case studies, short communications, editorials, technical notes, pictorial assays, and commentaries etc on the above-mentioned topics.

Indian Journal of Neurotrauma is under the editorial leadership of Editor-in-Chief Prof Deepak Agrawal, MBBS, MS, MCh (neurosurgery), who is also heading the Neurotrauma Department at the All-India Institute of Medical Sciences, New Delhi.

AUDIENCE:

Neurosurgeons, neuroscientists, neuroimaging specialists, neurologists, neurobiologists, neuropathologists, neuropsychologists, neuroradiologists, bioengineers, and rehabilitation specialists, among others.
