Authors can maximize the visibility and impact of their published articles by registering with [Kudos](#) - a web-based service for authors to increase readership and citations.

International Archives of Otorhinology is an international peer-reviewed journal focusing on disorders of the ear, nose, mouth, pharynx, larynx, cervical region, upper airway system, audiology and communication disorders. Published quarterly, the journal covers the entire spectrum of otorhinology - from prevention, to diagnosis, treatment and rehabilitation. This is an ideal reference for the practicing specialist, as well as an excellent tool for students who require the latest information on emerging techniques and areas of interest in the field.

International Archives of Otorhinology is an indispensable resource for specialists in otology, head and neck surgery, neurology, neurosurgery, allergology, pediatrics, physiotherapy, audiology and communicative disorders, phonology, physical therapy, pneumology, and many other areas. As an open-access journal, all articles published by the *International Archives of Otorhinology* are freely available to read and download from [Thieme E-Journals](#). All articles in

International Archives of Otorhinology undergo rigorous blind peer review.

International Archives of Otorhinology requires that authors follow the ICMJE (International Committee of Medical Journal Editors) recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly work in Medical Journals.
