Description

The current edition provides competency-based approach for the undergraduates. The title elucidates fundamental concepts in histology along with an exam-oriented approach.

**Salient features**

- Mapping of competencies and objectives to the content for all the topics.
- Functional histology has been provided correlating with the normal histology of the organ.
- Additional slides which are part of competency-based curriculum have been included.
- Additional flowcharts have been incorporated.
- MCQs have been added as part of assessment.
- Microscopic images of slides have been revised based on feedback received from readers.
- Separate section on frequently confused slides has been added to improve the learning outcomes and assessment scores in exams.
