Neuro ICU Procedure Atlas

Author: Jallo, Slottje
Date:
Edition: 1
Illustrations: 108
Pages: 174
ISBN: 9781684200177
Price: $69.99

Description

Atlas provides insightful guidance on how to perform core procedures in the neuro ICU

Neuro ICU Procedure Atlas by distinguished neurosurgeons Jack I. Jallo and David F. Slottje is a visually rich, step-by-step atlas describing technical aspects of common bedside procedures performed in patients with grave neurological conditions. With contributions from an impressive group of contributors, the book features 13 chapters encompassing fundamental techniques, such as shunt externalization/shunt tap, lumbar puncture, lumbar drain, ICP monitor, PbtO₂ and JvO₂ monitors, central and arterial line, cervical traction, intubation, cricothyrotomy, chest tube, and more.

Key Highlights

- In-depth, reader friendly discussion of vital clinical issues including indications and contraindications, relevant anatomy/physiology, and complications
- Clinical pearls and troubleshooting sections for each approach
- Illustrations of ventricular drain or ICP monitor placement, non-conventional ventricular drain insertion points, trajectory lines for ventricular drain insertion, and more provide detailed visual learning guides

This essential resource will help neurosurgical residents and early-career neurosurgeons, intensivists, nurse practitioners, and physician assistants accelerate the learning curve for the bedside care of critically ill patients.
