Description

The Clinical Guide for Plastic and Reconstructive Surgery: A Practical Handbook offers to resident doctors and consultants a unique compilation of comprehensive and authenticated information in a format that would help them prepare for practical examinations as well as in treating cases successfully. To mirror the practical exam format, the content of its 23 chapters, comprising 5 long and 18 short cases, is structured as questions and answers. In addition, for easy grasp and retention by the readers, the content follows a specific chronological sequence in delineating each case: history, general and local examination, investigations, how to proceed, stepwise planning, and surgical procedures.

Salient Features:

- Learning objectives at the beginning of each chapter enhance the content and help align a reader's thought process better.
- Photographs and illustrations depict every step of clinical examinations and surgical markings; flowcharts and algorithms depict the line of management.
- Covers questions posed to plastic surgery residents in examinations and viva voce.

Veena K. Singh, MCh, DNB (Plastic Surgery), is a renowned plastic surgeon currently working as an Additional Professor & HOD, Department of Burns & Plastic Surgery; Deputy Medical Superintendent, Superspecialty Hospital; and Nodal Officer, Rashtriya Bal Swasthya Karyakram (RBSK) at All India Institute of Medical Sciences, Phulwari Sharif, Patna, Bihar, India.
